

# APPLEDORE PARISH COUNCIL

## **Highways Strategy 2016 - 18**

The Parish Council will continue to address, with the aim to resolve, both longstanding and new issues as they arise by regular contact with Kent Highways and other relevant bodies.

In addition it will work with Kent Highways to establish permissible road safety improvements and their likely cost.

Based on the outcome of discussions with residents and other parties the Parish Council will explore possibilities for joint or total funding of the improvements which are judged to have the maximum value to Appledore in order of priority.
